Declaration of Commitment to the Principles of The European Charter for Researchers and The Code of Conduct for the Recruitment of Researchers

The Estonian Research Council (ETAg) declares its commitment to the principles laid down in the Recommendation of the European Commission of 11 March 2005 on the European Charter for Researchers and on a Code of Conduct for the Recruitment of Researchers.

By endorsing the principles of the Charter and the Code, ETAg expresses the intention to implement these principles through a Human Resources Strategy for Researchers, and thus to contribute to the attractiveness of the European Research Area.

As the Estonian governmental R&D funding organisation, we will support the development of the legislative and statutory framework for the implementation of the Charter and the Code. We will also commit ourselves to promoting the Recommendation's principles among our stakeholders.

Andres Koppel
Head of the Estonian Research Council
